RE: Resource Conservation and
Recovery Act Compliance Inspection
EPA I.D. #COD075270560

Dear Mr. Marks:

This letter is a follow-up to the inspection performed at Van Waters and Rogers on July 8, 1982. We are enclosing a copy of the inspection report for your information.

The inspectors noted that you do not generate quantities of hazardous waste over the small quantity limit. The inspection did not include a survey of the Interim Status requirements because of the small quantities you generate. We request that you notify our office when you commence generation, transportation, treatment, storage, or disposal of hazardous waste in the quantities designated in 40 CFR Part 261.5.

If you do not plan to generate, transport, treat, store or dispose of a hazardous waste in the future, please notify us in writing and we will delist your facility. Please send such correspondence to Jon Minkoff at the above address. At this time we plan no further action as a result of this inspection.

If you should have any questions, please contact Mr. Don Shosky at (303) 837-6258.

Sincerely yours,

Lawrence A. Wapensky
